Vision: To be the center for quality-oriented education and cultural arena.

Mission: To make intellectually bright, morally upgraded, socially committed, culturally iconic, conducive and egalitarian education system.

FROM THE PRINCIPAL'S DESK

My heart goes high to learn that the annual News Letter is all set to make its grand appearance as the 6th consecutive issue. This noble endeavour, once started has not looked back till date, and for this I would like to thank all who are as co-operative and helpful as expected what percolates all through the process, which is a part of larger

Dr. A. K. Ozah

effort, is an untiring zeal to make the institution a genuine hub of learning and place it abreast with the latest updates as perceived all around. Although every conceivable effort is being made to arrive at the vision of our institution, we cannot say that the desired goal has been achieved. Still so many things remain unaddressed not because of will-power or noble intention, but primarily because of some other factors, especially basic infrastructure, teacher-student ratio etc., creating problems for all and sundry. However, we do not, and must not, lose heart and try manifold to accelerate development of the institution. I wish you all good success in life.
