It is a matter of immense pleasure and satisfaction to know that the new edition of the Annual Newsletter of Chaiduar College is all set to see the light of day. The college celebrated the concluding ceremony of the Golden Jubilee with great fanfare and with a wide array of cultural and academic programmes last year. The untiring and dedicated service of the faculty members and the office staff have been commendable all through in making the institution a force of social-engineering. New educational courses and programmes are being planned of which the Integrated B.Ed course is one—which, if all goes well, may start from the next academic session. The newsletter is a chronicle of events, milestones and activities going on in the college. I appreciate the enthusiastic efforts made by the editorial board and the students of the Dept. of Mass Media in bringing out this edition of the Newsletter. I am confident that this issue of Newsletter will send a positive signal to the staff and students and to the society at large. I extend my heartfelt congratulations to the editorial board and offer best wishes to all members of the Chaiduar College fraternity.

EDITORIAL

A newsletter is an organisational vehicle for communication for its public, both internal and external. In case of an educational institution it entails more significance as the newsletter not only chronicles important activities of a HEI but also stands as a testimony of teaching-learning explorations.

I place on record my sincere appreciation towards principal, IQAC, various centers and cell for their unrelenting support and guidance towards the making of this newsletter. Although efforts have been made to make this publication error free, unintentional errors may have crept in. The editorial board records its apologies and solicits constructive feed backs for improvement.

Thank You.
